Quarantine Edition

Wow!, peculiar times, huh?

Remember all the times you thought of taking the

Pantera out on the road without traffic?
Now you can. You just have to go alone and not stop
anywhere.

Pantera not running (like mine), the old "I don't have
time" excuse just got weak.

Choose your priorities, Pantera, or Honey-do list?

We are looking for ways to get more Panteras back
on the road. If we can help, let us know.

Any thoughts on newsletter content?
I will appreciate helpful feedback.

We did get one event in prior to the

lockdown, a great visit to Dave & Linda
Adler's avocado ranch in Fallbrook.

We had a great group and great weather!
We got a very detailed guided tour of the Adler's
fantastic Fallbrook ranch.

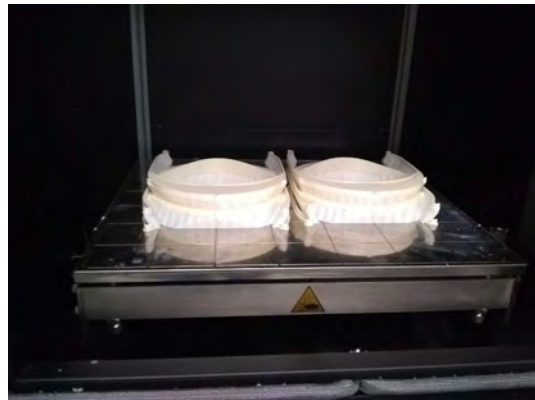

We learned the amazing history of Linda's "movie star" Mangusta and Dave's Pantera racer "Whiplash"

Dave wowed us with all the history of DeTomaso's first F1 car in their living room! I don't know how Dave got away with that. At my house, car stuff is banned outside my office or the garage.

We followed up with a country drive to the Lazy H Ranch for a wonderful lunch with members from OCP, CHIPIE, SDP, and more.

A special thanks to Dave & Linda Alder for a
great day and great hospitality!

Your editor has been busy making face shields
for health care workers.

For the many of you who attended last June's tech tour, the machines you saw have been converted to 24/7 production of PPE's. I have duplicated this in my Santa Ana, San Diego, and Ontario offices. Other GoEngineer offices across the country are helping as well as the equipment manufacturer and customers like Boeing. Currently, we are making and donating 7,700 PPE's per week.

It's a great timesaver!
